Vol. 5 No. 41

Coleman, Alberta, Thursday, June 3, 1926

Price Per Copy, Five Cents

THE MAIL BAG

May 31st, 1926

To the People of Coleman:

On Sunday, June 20th, it is proposed to hold a Demonstration and Service in aid of the Canadian Red Cross Society at Coleman.

A procession will be formed, headed by the Town Band, and consisting of members of Lodges and other Societies desiring to take part, and will proceed to the Park where a Service will be held at 4 p.m.

The co-operation of everybody would be welcomed. The Mayor and Council and all citizens of Coleman will be present.

Do your part, so that a successful united effort may be made on behalf of this worthy cause.

Yours sincerely,
Rev. H. Laurence Nobbs.

The Editor, Coleman Journal,
Coleman, Alberta.

Dear Sir:—

Will you kindly allow me space in your valuable paper to make a few statements on the Teachers' Salary question which has been discussed in one or more of the recent issues of your paper.

Concerning the hiring of local teachers, I personally am not in favor of hiring indiscriminately every product of the local schools who has completed the course of Normal training required by the Department of Education. At the same time all the members of the present school staff whose homes are in Coleman have been pupils of mine for two or more years, who know local conditions, who know the organization of the school and of whose ability I am aware. The policy of hiring local teachers started some years ago when teachers were harder to get and when teachers from outside points found it practically impossible to obtain private boarding places. The majority of houses in Coleman are not very large and hence people could not be blamed for refusing to take an outsider into their homes.

At the same time this made it very difficult to hold a staff together. In fact the problem has not been entirely solved as yet, but has certainly been less acute since the local teachers came on the staff.

As to salaries paid such teachers these are not the highest paid in the Province. I can name several rural districts that pay and have paid inexperienced teachers eleven hundred dollars.

I have before me the Salary schedules of Calgary, Lethbridge and Drumheller. For inexperienced Grade teachers the salary is one thousand dollars in Calgary and Lethbridge and one thousand and fifty dollars in Drumheller, which you will note is a hundred dollars less in two cases and fifty dollars less in the other than Coleman pays. On the other hand each of these Districts give the teacher, provided that she is doing efficient work, an annual raise the maximum amount of salary being seventeen hundred dollars in the case of Calgary or Lethbridge and fourteen hundred in the case of Drumheller. The most that any grade teacher has ever had in Coleman, to my knowledge, has been twelve hundred dollars.

Hence, Mr. Editor, I think you will agree with me that any teacher wishing to remain in any one of the three towns mentioned above or Coleman, permanently, from the point of view of salary, would place Coleman fourth on the list.

As far as the High Schools are concerned, and the Principalship, Coleman is paying the same figure as Drumheller and less than either of the other two places.

Quimette's Broom Brigade Took Town By Storm

The Quimette Close Out Sale had another banner day on Saturday of last week, when hundreds of bargain hunters in Coleman and from outside towns kept the large staff on the jump from the time the store opened in the morning until 9 p.m. in the evening.

Fifty-cent brooms were the big attraction that featured the many other splendid bargains last Saturday, and before the doors closed in the evening well over one hundred of these necessary household articles had found new homes. It was a case of brooms to the right, brooms to the left, and surrounded by brooms. A real "Broom Brigade" deployed their serried ranks over the entire town and district and no doubt has long since been put to practical use in many homes, in doing what this big sale is accomplishing—making a "clean sweep of everything."

During this week and next a final "Dash to the Finish!" is being planned by the Man in Charge when further unheard of bargains will be thrown at the public regardless of the cost price of the goods offered. These last day prices are going to put in the shade anything already offered at this stupendous Close Out Sale. Get ready to go!

Isabella Russell Laid to Rest

The funeral of the late Isabella Russell was held on Sunday last from the family residence on 2nd street, to St. Paul's Church where service was conducted by the Rev. D. K. Allan. The church was filled with many old time friends of the deceased and the casket was banked with beautiful floral tributes bearing silent testimony to the high esteem in which the departed lady was held.

Following service in the church the cortege proceeded to the Union Cemetery where the last solemn rites were performed.

The pall bearers were: Messrs. D. Roberts, W. White, Wm. Roughhead, R. Jenkins, A. Kiddens and T. Roughhead.

Students To See West Again

The second trans-Canada tour of professors and graduates of the University of Montreal will be made this summer, the party reaching Alberta on July 18th.

Sugar Beet Acreage

Acreage in sugar beets in the irrigated districts of southern Alberta will reach 7,000 acres this season. This is 1,000 acres more than the contracted area of last season.

At the Trustees Convention, the Chief Inspector of Schools stated that the average cost per pupil for the Graded Schools of the Province (as distinguished from Rural Schools) for last year was \$44.92; that of Coleman as stated by the auditors was \$45.60. Since the major portion of the Finance of the School Board go for salaries I can't see how the Coleman Teachers can be "rolling in the lap of luxury" to any greater extent than the other teachers of the Province. Of the forty or fifty thousand motor cars in the Province I think you will find that less are owned by teachers than by members of any other profession or trade having as many members as the Teaching Profession has.

Thanking you for the use of your valuable space.

Yours truly,
R. G. Powell,
Principal Coleman Schools.
Coleman, May 28th, 1926.

SCOUT NEWS

Come On Out!

The Red Cross have asked the Scouts to join in the parade on Sunday, June 20th, and to act as guard of honor. All Scouts will meet in their halls in full dress, carrying staffs.

No. 2 Troop is making a great effort to get the second 2nd class scout, but No. 1 is still in the lead with Howarth, who only has his cooking test to pass.

There is a report that some "Scouts" did not clean up their camp, but left papers scattered about. We hope the report is false.

No. 1 had their usual meet on Friday. Much dissatisfaction was expressed at the late arrival of the Commissioner, who is acting Scout Master, until he explained he was working late.

No. 1 are working hard at their First Aid, but have not yet reached the same degree of proficiency as No. 2.

No. 1 Troop is building a treck cart.

No. 1 Troop is going on a hike at 6.30 on Friday night.

Don't Get Excited

If some stranger approaches you during the month of June and commences to ask various personal questions relating to your age, where born, if you have a wife, children, what you work at, etc., etc., don't start to squirm and think some of your past sins have found you out, as more than likely this assertive stranger will prove to be one of several thousand enumerators—not a detective—appointed to take the quinquennial census in the three prairie provinces. Charles C. Short, of High River, is the commissioner who has charge of this work in the federal constituency of Macleod.

Blairmore and Coleman Play Inter Club Tennis

Blairmore and Coleman played an inter club match on the local courts Wednesday afternoon with the following result:—

Coleman Blairmore
Men's Doubles
Lindoe & Watts Pruden & Pinkney
Lindoe & Watts won 6-1 8-6
Holetad & Wallace &
Galbraith McDonald
Wallace & McDonald won 6-1 7-5

Men's Singles

J. A. McLeod A. Hnatyshyn
McLeod won 5-7, 6-4, 7-5
John McDonald F. Clendfield
McDonald won 6-4, 6-4
R. F. Barnes Eddie McDonald
Barnes won 6-3, 8-6

Ladies Doubles

Gladys Price & Mrs. Kerr &
V. McDonald A. Marquis

Barnes Muncester
Kerr & Muncester 10-8, 8-6, 9-7

Mrs. Graham & Mrs. Smith &

Lindoe J.R. Smith

Graham & Lindoe 6-4, 7-5

July 1st, 2nd and 3rd Red Letter Days in Coleman

The Coleman Elks, aided by all other public minded citizens, plan to make Coleman the Mecca for all pleasure lovers during a three day riot of fun and jollity commencing on July 1st, and continuing during July 2nd and 3rd.

The fun will commence on July 1st with a parade of children of all ages to the sports ground following a distribution of flags by the Elks, good counsel concerning our flag by Excited Ruler A. M. Morrison of the Coleman Lodge, and company good for 20¢ worth of ice cream, candy, pop corn, or what have you. Race and other sports will occupy the morning, after which the parade will be dismissed until after lunch.

In the afternoon a program of sports the like of which has never been held in the Crow's Nest Pass will be presented. One of the chief events will be a football match between the celebrated Calgary Brewery team and a picked team from The Pass. Junior and senior baseball has been arranged as well as quoits, Italian hand ball, and other items too numerous to mention.

The Crow's Nest Pass First Aid Association is holding a Competition during the afternoon. Numerous competitions are on the program and handsome prizes have been selected to be awarded to the winners of each event. The championship of the Crow's Nest Pass Lawn Tennis Association will be played on the courts of the Coleman club commencing at 9 a.m. and continuing throughout the day.

In the evening the Grand Carnival in the Coleman Crystal Rink will be opened by the Mayor. The massed bands of Coleman will play before and after the ceremony. When the Carnival has opened an array of amusements and games never before presented to The Pass will be available to all without money and without price. Blankets, hams, bacon, silk shirts and hosiery and all manner of articles will be practically given away to the holders of the lucky tickets. A genuine Ford Touring Car will be given away for one dollar to the fortunate holder of a certain ticket which will be selected in plain view of one and all on Saturday night. A washing machine will also be presented to one fortunate individual who has been lucky enough to select the right number. There will be dancing every night on the largest and best floor in The Pass. Remember, admission to the Carnival is free.

All proceeds from the Carnival and Sports will be used in completing the Swimming Pool and for other community purposes.

Charter for Big Hotel

The Great Northern Railway has applied at the office of the Provincial Secretary of Alberta for the necessary charter for the erection of its proposed million dollar hotel at the Waterton National Park, Waterton.

TOWN OF COLEMAN. NOTICE.

Notice is hereby given that if all areas of taxes imposed in 1925 in respect of any parcel of land situated within this municipality are not paid on or before the first day of July next, such land will be dealt with under the provisions of The Tax Recovery Act, 1922, with a view to obtaining certificate of title in the name of the municipality in respect of such parcel.

Dated at Coleman this second day of June, 1926.

JAMES FORD,

Secretary-Treasurer.

LOCAL, PERSONAL AND GENERAL NEWS

A big dance is billed for the Arena tonight, under the auspices of the Carnival Committee. The building has been tastefully decorated for the occasion and the new floor is in splendid shape.

Mr. R. F. Barnes spent the week-end at Fernie, playing as a member of the Blairmore Golf Club in their inter-club match with Fernie. The B. C. town won on the day's play by one point.

Pat Hope, of Winterbourn, near Edmonton, lost his right leg at the knee as a result of attempting to board a west bound freight train at Blairmore last Saturday evening. He was taken to the hospital and Dr. Oliver amputated the leg which was badly crushed.

A regular meeting of Coleman Lodge No. 117, B. P. O. E., takes place at 8 p.m. in the Knights of Pythias hall. All Elks are asked to make a special effort to attend this meeting.

Messrs. H. C. McBurney and A. M. Morrison were visitors to Cranbrook on Tuesday.

Liberals Gather in Calgary June 7

Liberals of Rocky Mountain met in Calgary, Monday, June 7th, for the purpose of selecting a standard ticket for the approaching election. On Monday evening Coleman Liberals met and appointed their full representation of six delegates, who will leave Sunday night for Calgary. According to current reports every poll in the riding will have its full quota of delegates at Calgary next Monday, and the convention promises to be one of the most enthusiastic and representative ever held in the riding.

Mrs. Asbridge is to be the soloist at St. Paul's Church on Sunday evening, June 6th.

Mr. and Mrs. O. E. S. Whitehead returned last week from a visit to Vernon and Nelson, B. C.

Mr. W. N. Donaldson, of Kimberley, spent Saturday and Sunday in Coleman, and returned to the B. C. mining town late Sunday accompanied by Mrs. Donaldson and daughter Margaret, who will spend a week or two at Kimberley.

Cool Creek play a league football game here on Saturday at 6.30 p.m.

Bob Eastwood had the misfortune to crack a rib on Tuesday, which laid him up for a few days this week.

The wonderful slides depicting the work of the Canadian Red Cross Society will be shown to the members of the Junior Red Cross Society at Coleman on Friday next. They will also be shown to the local Scout troops at St. Allan's Parish Hall on Friday at 8.15 p.m. Arrangements can be made for other organizations interested to have a special showing on request to the Rev. H. Laurence Nobbs, Phone 22, Coleman.

A meeting of the congregation of St. Allan's Church took place after the evening Service last Sunday evening. Important business was transacted. The Priest in-charge has intimated to the Bishop his intention to resign.

Mr. H. C. McBurney purchased a new McLaughlin-Buick Sedan "Six" from the Coleman Garage this week.

The Work of the Red Cross

The Lantern—A very important part of the Campaign Organization has been the lantern and pictures. Taken by the Red Cross Camera all sides of the work that goes to make up the peace time program have been shown in the seventy slides which tell the "Story in Pictures." The utmost hospitality has been extended to our organizers by the churches and clergy, and by kindly arrangement of Rev. H. Laurence Nobbs, the slides will be shown in Coleman on Sunday, June 13th, at 8.30 p.m., in the Parish Hall. Admission free. Collection will be taken for the Red Cross Society.

Messrs. R. G. Powell and R. F. Barnes are going to Cranbrook this week-end to play in the 7th annual tournament of the Crow's Nest Pass Golf Association which is being held in the B. C. city on June 5th, 6th and 7th.

Mayor Burns has again this week contributed an article for The Journal's columns, but owing to the fact that it is somewhat lengthy and was a little late in arriving, we are forced to hold it over until our next issue, when it will appear, along with a comment by the editor.

Card of Thanks

I desire to thank all those kind friends who sent floral tributes and supplied cars, and in other ways expressed sympathy at the time of my recent sad bereavement.

James Russell Ewing.

Rev. A. W. Neal, formerly lay-reader at St. Alban's, Coleman, was ordained a Deacon at Winnipeg on Sunday last. He has been appointed to Headingley, near Winnipeg. His many friends in Coleman wish him every success in his new sphere of work.

Teachers' contracts are terminable on thirty days' notice by either side, Mr. Justice Boyle found Tuesday, in dismissing the action of H. P. Thoreson and thirteen other teachers of Blairmore school district, who sued the board for one year's salary, each alleging that termination of their engagements had not been legal.

All ladies who intend taking the Millinery Course, July 9th to 12th, to be held in Coleman under the auspices of the local Women's Institute, are requested to immediately notify either Mrs. A. W. H. McLeod or Mrs. Walter Rosworth, and make arrangements to procure their material.

Date of Provincial Election

Dissolution of the Legislature of Alberta was effected this week, and writ issued for a provincial election on June 28th, with nomination day on June 18th. There are 80 seats in the Legislature.

NOTICE.

NOTICE IS HEREBY GIVEN that the Council of the Town of Coleman intends to pass By-Law for the closing and sale of part of Victoria Avenue and land abutting thereon in Block 4 Plan Coleman 8801, and plans showing the land to be sold may be seen at the Secretary-Treasurer's Office.

Dated at Coleman this 2nd day of June, 1926.

JAMES FORD,

Secretary-Treasurer.

THURSDAY, JUNE 3, 1926

MEDIA FOR PROGRESS.

Any patronage or support given to legitimate business acts as do the waves when a pebble is thrown into the water. Its influence spreads until expended proportionately with the force that caused it.

There are certain classes of business and certain institutions that are splendid media through which influence is exerted for common benefit. The schools, representing all of the people, are media through which the taxpayers' and parents' influence and interests are shown in higher learning and better citizenship.

The churches are media for religious instruction and for man's most cherished need—spiritual betterment.

Our civic and fraternal organizations are fine media for social contact and for closer bonds of fellowship.

Sports and wholesome forms of amusement are media for the recreation and for mental and physical rejuvenation of all the people.

The newspapers, which theoretically reach all of the people, and which practically do, are media for the dissemination of news and business opportunities. Newspapers come mighty near voicing the average and majority opinion of the people; and certainly they serve all of the people and all of the institutions coming within their range of circulation. It may be said that the newspaper is the clearing house

for the ideals and undertakings promulgated and sponsored by the institutions of the community.

Those who want to take the kick out of life want to take the life out of those who kick about those who want to kick the life out of those who don't want those who want to take the kick out of life to kick.

Being for something good and right is better than being against something bad and wrong, when the fulfillment of the former replaces the need for the latter.

There are many cells in the brain, and there are a good many brains that ought to be in cells.

If you would succeed play as square with yourself as you do with the other fellow.

From now on it will be hard for the North Pole to get on the front page.

The hand that lends itself to unselfish service is always the right hand.

You can't repeal the laws of Nature. But, happily, you can't pass more.

A second piece isn't really a piece any more: it's just a fraction.

Too many people want to put the rate in co-optate.

Some towns need 52 Clean-Up Weeks annually.

If we don't look after one another now we may not want to look at one another after we haven't looked after one another after a while.

Jokes are like blades of grass; no two exactly alike and a lot of them green.

Instead of the bacon many a fellow brings home his cooked goose.

The only trouble with these so-called penny-ante games is that a long about 11 o'clock the penny inflates to two-bits.

Another reason Solomon was wise: he married all of them and thus avoided 1000 breach of promise suits.

Our idea of useless education is teaching the modern boy the number of square feet in a cord of wood.

Ask a man for a favor and you have made a friend; do unto him a favor and the returns are debatable.

Speaking of having no more privacy than a goldfish, how about the North and South Poles from now on?

Just as the explorers were rising up to the Pole the Poles were having an uprising.

When you're in Rome do the Romans before they do you.

Before a candidate is elected he promises to clean up. After he is elected he does clean up.

We like that woman who said her only claim to fame was being a mother.

Here and There

Immigration to Canada in 1925 totalled \$4,907, of which \$5,362 was contributed by the British Isles, 17,117 by the United States, and 31,828 by other countries. In addition, 39,989 Canadians who had established homes in the United States and resided there for a period longer than six months returned to live in their native land.

A new cash-on-delivery parcel system has been inaugurated at Post Offices all over Great Britain. Parcels up to the value of £40 (about \$195) may now be posted at any post office to any address in Great Britain, the value being collected by the Post Office authorities and remitted to the sender. The system seems to be meeting with success.

28th INTERNATIONAL EUCHARISTIC CONGRESS CHICAGO - JUNE, 1926

Canadian Pacific to Operate Special Congress Trains

The 28th International Eucharistic Congress, to be held in Chicago, June 20 to 24, 1926, will be one of the greatest religious demonstrations that the world has ever seen.

With the sanction of the Ecclesiastical Authorities and, for the convenience of people of Western Canada, who will attend the Congress, the Canadian Pacific will operate special "Congress Trains," starting from Moose Jaw and Winnipeg. The Moose Jaw Special will leave 5.30 p. m., June 18th; the Winnipeg Special 8.15 a. m., June 19th. These specials will carry equipment of the latest type, and provide a fine, fast through service to Chicago.

Special sleeping cars will start from various points in the west and attached to the "Congress Specials" at Moose Jaw and Winnipeg.

Reduced Railway Fares
Reduced railway fare tickets from stations in Western Canada will be placed on sale June 18th to 22nd, bearing a final return limit to July 2nd, 1926. These tickets will be honored on regular or Special trains.

The Canadian Pacific are in a position to make hotel reservations in Chicago, whereby passengers may complete every detail of their arrangements prior to departure. As thousands will attend this event, those who intend making the trip should communicate as early as possible with the Ticket Agent in order that desired accommodation may be secured.

Plan Believed To Be Feasible For Tree Lining Of A Highway Stretching From Ocean To Ocean

The campaign being conducted by Dr. P. E. Doolittle, president of the Canadian Automobile Association (the which the provincial motor leagues of the Dominion are federated) for the tree lining of the trans-Canada highway from ocean to ocean, has resulted in bringing out a number of remarkable declarations from many sources not the least striking of which are some that describe the plan as chimerical because impossible.

Those that dogmatically state it to be impossible base their declarations on the fact that the open prairies are practically treeless.

A summarized composite statement of their own right is: "If trees could be grown on the prairies (the prairies) would have been clad with one vast forest."

It is strange indeed how a popular fallacy persists and is stated as a fact with a fine air of finality long after it has been demonstrated by fact to be a fallacy. It is true that the absence of trees on the prairie puzzled the savants, and to this day different reasons are advanced for this natural phenomenon. During many centuries the recession of the great ice cap of the glacial period or long ago formed a large ice dam to the north of the Canadian western plains. This resulted in the formation of an enormous lake known to science as Lake Agassiz. When the cap had retreated from the continent the vast moraine carpeted prairie provinces were again drained. Why didn't they become naturally reforested as other sections of the ice capped world did? Some say that the prairie trees naturally die by the Indians prevented tree growth. Others state that owing to the unprotected nature of the terrain the severity of storms and climatic conditions destroyed the seedlings. There are still other theories.

But that trees of many varieties can be grown on the prairie has been a demonstrated fact for many years. An article recently told of tens of millions of trees being grown on the farms of the prairie provinces as well as in the towns and cities, thanks largely to activity of the forestry branch of the department of the Interior and its nursery system.—The W. L. Hastings, M.R.A.C., in Toronto Star.

Homeseekers From U.S.

Experienced Farmers From Western States Investigating Prospects in Canada

The first of several parties of prospective land buyers and homeseekers from the United States to come to Western Canada this season under the auspices of the Canadian National settlement scheme, reached Winnipeg recently with Capt. L. M. Boyd, superintendent of colonization, and the Western Railways at St. Paul, Minn. The party, which consisted of 21 experienced farmers from Minnesota, Dakota and Nebraska, are looking over the Eston district in Saskatchewan with a view to settling on farms. Practically all of them have just finished seedling the land which they will own in the States. If they receive favorable reports, they intend to transfer their stock and machinery and be ready to begin operations next spring. Several farmers who purchased land in the western provinces last year have moved their equipment from the States and are now engaged in plowing with a crop already in the ground.

Business Men To Visit America
A party of Japanese business men representing the Associated Chambers of Commerce of Japan will visit the Dominion during the coming summer. The Chambers of Commerce of the Orient arranged the trip so that their representatives might study conditions in European countries. They will arrive at San Francisco on June 14 and are due at Vancouver on August 5 after their journey across the United States and Canada.

Always A Catch

Said: "You wireless is wonderful. Think of 'beats' the salmon from the tank in yet six hours and 'me' collection too worry about."

Jean: "Aye, but ye ken ye ha' to pay a license tax the government afore ye can listen in."

Sandy: "Deh! aye—I thought there was a catch in it somewhere."

Aeroplane For Shopping Trips

Aviationists trip to Paris are being arranged for by the Humber & Pag Company. Air liners will leave Croydon at 8 a.m. Spending the day in Paris the shoppers will re-arrive in London at 7 p.m.

A talkative friend can do more harm sometimes than a silent enemy.

W. N. C. 1621

Canadian Wheat Pool

The Growth and Advantages of Co-operative Marketing of Western Wheat

The farmers of Western Canada in less than three years, have established the largest co-operative organization of its kind in the world. The Canadian Wheat Pool, with its three units in the provinces of Manitoba, Saskatchewan and Alberta, now has a total membership of 125,000 farmers, controlling 13,250,000 of the 21,000,000 acres sown to wheat last year in the three prairie provinces. It is handling the sale of the greater part of the wheat production of Canada, and Canada already exports more wheat than any other country in the world.

The largest proportion of the wheat is sold by a central selling agency to importers and buyers in different countries of the world and its own representatives in 51 ports of the world. The funds which accrue from the sales are disbursed to the members of the pool. This method of handling wheat provides a large volume through one agency and reduces the cost of operation to a minimum.

The Wheat Pool in Western Canada is a notable example of the advancement made by the farmers of this area. Already it has shown the possibilities and advantages of co-operative marketing. The farmer in the Canadian west, who is a member of the Wheat Pool, has realized that under the old system he sold his grain to the exporter who bought it for the express purpose of making a profit in the selling of it. Under the old system, the farmer sold his wheat and took what the market offered. In the pool system he delivers his grain when convenient and obtains the average price of the selling period, together with the margin in the handling and the pool price to every member in the price at Fort William, less handling charges and freight charges. The latter, of course, vary according to the length of the haul.

With the development of Canada's agricultural areas, only one-fifth of which are as yet under cultivation, the growth of the Canadian Wheat Pool may reach a magnitude never before conceived in co-operative marketing.

Progress Of Dairying

Returns From Dairying Larger Than Revenue From Mines

In less than 20 years the dairy production of Canada has increased in value from \$24,000,000 to \$550,000,000. Dr. Rudolph, Canadian Government dairy commissioner, in a recent statement, points out that the returns from dairying in Canada are greatly in excess of the revenue from the mines which last year produced minerals to the value of \$209,583,406.

Though Ontario and Quebec are the chief centers of dairying in Canada, it is also a profitable industry in such provinces. In recent years the prairie provinces of Western Canada have made remarkable progress and are now large exporters of butter.

Leaders In Special Crops

British Columbia is not only the leading Ontario in fruit production, but has a monopoly on peaches, hops and rabbies. Prince Edward Island is still the most important fur-farming province. Quebec leads in the production of maple products, and Ontario in wheat, tobacco, sugar beets, fax fibre, clover and grass seeds.

Ambassador Says League of Nations Necessary

"The question of European peace is the most urgent and immediate problem of all at present, even overshadowing the stupendous Asiatic Pacific problem," stated Sir George Howard, British ambassador to Washington, on his arrival at Toronto recently on a Canadian Pacific Railway train from the American capital. "In order to assist in maintaining peace in Europe," Sir George continued, "we must continue to be intimately connected with all its affairs. Great Britain must profess indifference to European politics as the inhabitants of the North American continent can. For the reason Britain is practically compelled to have a large and active League of Nations. If the league should disappear tomorrow we would be compelled once again to join some European combination against any country which threatened to dominate the continent."

Farmers Warned Not To Increase Potato Acreage

Possibility That Market May Not Be Good Next Season

Mr. Geo. E. McIntosh, the Dominion fruit commissioner, warns potato growers against planting an increased acreage this spring. The present high prices are an incentive to do this, but there is every possibility that market conditions will not be so good next season. In a recently issued statement McIntosh points out that in 1925 there were unusually small crops both in Canada and the United States. The shortage in the United States made a heavy demand on our supplies and had an important influence in causing the high prices. It would, therefore, be advisable for potato growers in all the provinces to give this matter careful consideration and to plant only their normal acreage of potatoes lest a huge crop bring about a repetition of the unprofitable marketing conditions of the previous few years.

Asbestos Exports

Higher Last Year

United States Canada's Best Customer With Germany Second

A new high record was established in the Canadian production of asbestos in 1925. The total shipments for the year were 290,389 short tons, valued at \$9,588,490, as compared with 257,744 tons at \$6,710,430 in 1924 according to finally revised statistics on the industry just issued by the mining branch of the Dominion bureau of statistics.

Exports of asbestos (including sand and waste) in 1925 totalled 258,017 tons, or 52,568 tons in excess of the quantity exported in 1924. Shipments to Great Britain amounted to 8,709 tons; to United States, 299,873 tons; and to Germany, 11,120 tons. Exports of asbestos to Australia, Belgium, France, Italy and the Netherlands increased materially.

Ontario Hardwood Industry

American Firm Purchases Large Area Of Timber Near Sault Ste. Marie

Premier G. Howard Ferguson of Ontario has confirmed the report that a large area of hardwood timber between Sault Ste. Marie and Thessalon had been sold by the Provincial Government to an American firm, which is to have a large say in the management of hardwood products. The area sold is of 1,458 square miles, and the sale marks the first attempt on a large scale to establish a hardwood industry in the province.

The province will collect \$2.50 bonus and fifty cents statutory dues on every thousand feet of hardwood cut, and the cut will be from fifteen million feet in the first year to 25,000,000 the second and thereafter.

Convention Of Unique Club

Thirty-seven asters sent prominent baldheads, about 500 of them, to the Bridgport, Conn., on May 10, when the Baldhead Club of America held its annual convention. Under the charter a man must have three inches of bald pate, plus \$1, to become a member.

"Have you caught that burglar yet?" "No," replied the detective, "we haven't caught him, but we've got the no scared that he doesn't dare to show himself when we're around."

System Of Intelligent Selection Practically Demonstrated And Makes For Successful Farming

The Production Of Wax

Beeswax Is Worth More Than Twice As Much As Honey

Beeswax being worth more than twice as much per pound as honey, all the wax that is produced in the apiculture should be saved, says Mr. C. B. Goodwin, the Dominion apiarist. In an apiculture for extracted honey the wax will come principally from caplings. A special box should be kept for old combs that have been rejected, for pieces of adulterated comb, for pieces of drone comb that have been cut out of worker combs, for trimmings of foundations, etc., as they represent wax. The best way to deal with capplings and pieces of clean new comb, says Mr. Goodwin, is to place them in a glass wax extractor consisting of a solar-covered box containing a sheet metal tray in which they will melt by the heat of the sun during the warmer months of the year, but combs that contain much pollen or have been used for rearing brood so often that they have become dark-colored cannot be rendered profitably in the solar extractor and must be melted over a fire in boiling water or by steam. A certain amount of wax may be extracted from such combs by rendering them in a wax-extractor machine on the principle of a potato masher, but to get nearly all the wax out of them it is necessary to subject the molten mass to pressure. The supply dealers will readily take beeswax in exchange for comb foundation, charging a moderate commission per pound for making the foundation.

Opportunities For Poultry Raisers

Industry In British Columbia Is A Prosperous Condition

The poultry raising industry in British Columbia is quite prosperous and there are good opportunities for experienced poultry men with a little capital to enter this business and make a success. Climate and other conditions are very favorable for poultry raising. The scale which this industry has reached in British Columbia is indicated by the fact that one concern has recently installed incubators with a capacity of 24,000 eggs, and shipments of day-old chicks from a single concern average 5,000 a week.

Need To Improve Quality Of Beef

"Better Beef" Campaign Is Urged By Eastern Livestockmen

Several speakers at the annual meeting of the Eastern Canada Livestock Union, held at Toronto, emphasized the need for a "better beef" campaign throughout the Dominion. Equal in importance with the necessity of improving the quality of beef was the necessity for educating the consumer to an appreciation of what good beef really meant. A resolution was passed urging that the federal and provincial governments be interviewed with regard to organizing an educational campaign. Those who break the ice to go to swimming aren't unique. So many social climbers suffer in the same way.

Something To Think About

Always Demand For Essentials Supplied In Good Condition

Manufacturers of sterilized milk during the recent strike in London were asked to continue shipping to the United Kingdom. There were plenty of difficulties in the way of so doing, but the British manufacturers of milk, the shipment of milk to be of sufficient importance to keep the supply uninterrupted. Milk, therefore, under the stern conditions encountered, was regarded as a necessity. On the other hand, manufacturers of fancy biscuits were instructed to discontinue shipments. These facts taken together are highly suggestive. First the demand for essentials is the last to cease. Will not farmers do well to keep this fact in mind? There is always a demand for an essential supplied in good condition. In the second place, fancy articles go by the board when the gains begin to shoot. The demand for essentials is based upon the condition of life itself. Fancy articles are of value only when whims may be gratified. It is well to take note of these facts.

Birch Bark Canoes

Four hundred dozen birch bark canoes, the work of Indians on Manitowaning Island in the Georgian Bay, passed through Montreal recently for a New York destination. Each canoe is about twelve inches long and they are used as ornaments, being very decorative in their general appearance. Similar shipments have been made to New York for some years past.

Coleridge's Hat His Bank

Coleridge, the writer, had a peculiar way of keeping his money concealed in his hat and his manuscripts in his bath tub. For many years he had left the management of his affairs to his wife, who was his business manager. She had a small room for him, whereas his manuscripts during the time required a spacious container.

The two columns of the daily papers prove that man wants a great deal more below.

Fashion leaders are so called because they follow the fashion.

WORLD HAPPENINGS
BRIEFLY TOLD

The City of New York generates and uses about 10 per cent. of all electric energy generated in U. S.

Cowcatchers like those used on American railroad engines are being introduced on automobiles in London as a safety device.

After being published continuously for just over 21 years, the Red Deer News has ceased publication. It was sold to the Red Deer Advocate.

Out of a population of over 20,000, only 1,500 residents of Saskatoon will be able to pay city taxes this year.

A liberty bell made of 20,000 electric lamps, and as tall as a six-story building, is to be a feature of Philadelphia Sesquicentennial.

Had a secret ballot been taken among the miners' wives, says Emmeline Pankhurst, writing in The London Sunday Express, the miners' strike would never have been called.

The Canadian Club of New York has a total membership of 1,300 and has increased at the rate of one member per day during the last three months.

Women and girls in the West Ham Guardians' Central Home, London, Eng., detained under the provisions of the Lunacy Act, are to be allowed to visit the local cinema once a week, at the expense of the guardians.

One hundred dead and more than 200 injured have been removed from the mass of mud, lava and rocks precipitated by the eruption of a volcano in Tokachi province, Hokkaido Island, Japan.

John H. Fox, deputy receiver of taxes at Long Island City, has installed four tear-gas guns and a big goon for an alarm. Cashiers can release the tear gas by stepping on knobs on the floor. Receipts of taxes at the office at times amount to \$500,000 in a day.

Mexican bandits have captured two Americans and are holding them in Mexico for a ransom of 6,000 pesos, according to advices received from the American consul at Torreon. C. C. Braden, a mining engineer, and a man named Gallagher are the men held.

Next Generation Taller

Gain in Height and Weight Predicted By Nutrition Experts

Sons will outpace their fathers in height and weight, and daughters will top their mothers by a generous inch or two in the opinions of two nutrition experts who attended the national health congress at Atlantic City, N.Y.

"Longer and stronger bones are some of the results of correct nutrition that we are beginning to observe in children study, Miss Miriam Birdseye of the United States Department of agriculture told the Associated Press.

"The gain of an inch in height and a corresponding gain in weight may be looked for in the next generation, because of our much better diet habits," said Dr. Samuel J. Crumblin.

What Future Will Show

The Japanese empire has a population of over 53,000,000. The growth is threequarters of a million a year. Japanese papers refer to the fact that Siberia, Mongolia, Manchuria, and South America are open to Japanese emigrants, but the United States and Australia are closed to them.

The opinion is expressed that the future will show which is the stronger—natural law or man-made legislation—Kingston British Whig.

Walnut Is King Of Woods

Walnut appears to be the king in commercial hardwood lumber, measured in cost standards. This aristocrat is the only species of wood used generally for lumber that costs more than at any other time in its history—Lumber Trade Journal.

TIPPITY-WITCH IRENE

German Professors
Discover New Star

Ten Million Years Old and Brighter Than Sun

A new star has been discovered, an amazing star in the fourteenth magnitude, 4,000 times too faint to be seen with the naked eye, flashed up in a small spiral nebula which appears as big as a dime at a distance of 20 years.

In reality, it is a star of 10 million times brighter than the sun, flashing up in an island universe of almost 10,000,000 light years. This means we are looking into the past of our distant cousin universe, for the catastrophe which gave birth to this new star happened 10,000,000 years ago, long before the glacial period on earth.

New stars are not a very common occurrence in the sky. The last one appeared in May, 1925.

This last one was discovered at Heidelberg, Germany, by Professors Max Wolf and Reinhold. The good news was immediately telegraphed to Copenhagen and thence to the Harvard observatory, the clearing house for astronomical news in America. Telescopes all over the country were pointed at the nebula and soon the existence of the nova was confirmed on plates taken at Harvard.

The Orphan Colt

Advice As To Feeding Young Colts From Time of Birth

(Manitoba Agricultural College Note)

Occasionally the mare dies at foaling time or has no milk for her foal. This presents a rather serious problem, but one that can be dealt with successfully if patience, vigilance and common sense be the keynote of treatment. It is especially worth while now to raise every good draft foal. Statistics show that "unless the rate of replacement is increased about what it has been during the past two years, there will gradually develop in North America a decided decline in our horse population." Raise the foal with quality and this can only be done by good breeding and judicious feeding from colt-hood to maturity. The horse makes one-half of his weight during the first year of his life. The best substitute for mare's milk is milk from a cow and preferably from one yielding a low percentage of fat, according to Professor H. B. Sommerfeld, Animal Husbandry Department, Manitoba Agricultural College. To one tablespoonful of sugar add one tablespoonful of milk water and enough fresh milk to make a pint. Feed about one-fourth pint every hour for the first few days, always warming to blood heat. A satisfactory method of feeding the foal is to use an ordinary nursing bottle with a large nipple. Whatever utensil is used, it should be thoroughly cleaned and scalded before each meal. As the foal grows, the amount of milk may be gradually increased, the period between feedings lengthened and whole milk substituted. After a few days, six feedings a day will suffice and later, only four. At three to four weeks of age, the use of sugar may be stopped, but it is well to continue the milk water. In five or six weeks, sweet skim milk may be gradually substituted for whole milk and after three months the colt may be given nearly all it will drink three times a day. The towels should move freely, but if scours occur, give from 2 to 4 tablespoonfuls of mixture of sweet oil and pure castor oil shaken up in milk, stopping the feeding of milk for two or three meals, allowing instead, only sweetened warm water with lime water added. At the earliest possible age, the foal should be fed solid food, such as crushed or whole oats, bran and a little flaked corn meal and legume hay. For exercise, let the orphan have the run of a lot or grass paddock.

Farm Help In Demand

About four thousand men have been placed on Alberta farms this spring and the demand has not been fully met, so Walter Smitten, commissioner of labor, reports.

"IDEAL" fashions—
For Belle Hamilton

Smartly Correct

This season the two-piece frock rules over a wider domain than ever, and on many days, the hours of its reign extend from morning to evening. Therefore, it must be practical, yet combine as well, a semi-formal charm for leisurely events. This model pictured here is a typical example of a sports costume that is smartly correct for either a morning of shopping, or an afternoon of bridge. The jumper shows a high, turn-down collar, joined to a vest with button trimming, and oddly-shaped patch pockets that support a narrow tie belt. It has long set-in sleeves gathered to deep cuffs at the wrists. The skirt, attached to a body lining, is box-plaited at the front only. No 1261 is in sizes 16, 18 and 20 years. Size 18 years requires 1 1/2 yards 36-inch plain material for skirt, with 3/4 yard lining for bodice top; blouse requires 2 1/2 yards 36-inch figured material, and 3/4 yard plain contrasting. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Plan Jack Miner League of Canada

To Honor World Famous Naturalist and Conservationist

A movement for the honoring of Jack Miner, world famous conservationist and student of animal life, has been started by Essex County for the organization in every community of the Dominion of the Jack Miner League of Canada.

The object of the league is to interest more people in the study of natural history, plant life, reforestation and conservation of the wild bird life on the continent.

A bird sanctuary Mr. Miner conducts at his home in Essex County is known as the home where all birds may find shelter.

Canada's Coal Supply

The time is rapidly approaching when domestic fuel cannot be obtained from across the border whether Canadian or not. The country's interests demand that of that source of supply should be assured by the encouragement of the industry within our borders.—Economic Journal.

Some men admit that they are self-made, while there are others who blame it on their wives.

SUNDAY SCHOOL LESSON
JUNE 6

JACOB AND ESAU

Golden Text: Be ye kind to one another, tenderhearted, forgiving one another, even as God also in Christ forgave you. Ephesians 4:32.

Lesson: Genesis 25:19-34; 26:34 to 28:9; 32:3 to 32:17.

Devotional Reading: Matthew 6:9-15.

Explanations and Comments

Jacob's Fear of Esau at Mahanaim, 32:14.—On his father's journey to the land of his fathers (see the Historical Background), Jacob reached the spot he named Mahanaim in Esau's territory. He deemed it politic to acquaint Esau of his arrival. The messengers sent ahead for this purpose, returned with the startling news that Esau himself was on his way to meet Jacob accompanied by four hundred men. Jacob was panic-stricken, and good reason had he to be so; naturally he thought that Esau was coming to avenge the wrong he had received at his brother's hands. Jacob was face to face with the consequences of his past.

"You never to do with a sin until it is out in the light and forgiven. Psycho-analysis may have what perceptions it will. It makes some things certain: that a man can sin, but he can have a few qualms of conscience, that he can harden himself and forget that he can trust his sin down into the hold of his subconsciousness and shut the hatchways with a sin, but if he thinks he is through with his sin just because he has crushed it down into his subconsciousness he is mistaken. He is not through with it. That sin is at work still, terribly at work, until it comes out at the basis of his personality. We Christian preachers for centuries have been saying that man ever gets through with a sin until it is forgiven, but there is terrible reality given to that fact now by science. You never are done with a sin until it is out in the light and forgiven" (Dr. Harry Emerson Fosdick).

United States Sitting Tight

Debtor Nations Are Having Hard Time Paying U. S. Debts

Perhaps some day Uncle Sam may feel benevolent enough to follow the policy of Great Britain succeeding the Napoleonic wars, by which countries over seas were cancelled, but in the meantime he is sitting tight and the debtor nations are trying to devise ways of making payments. They cannot pay in goods because of the United States tariff wall. To raise gold they must undercut Uncle Sam in other markets, which is difficult. And if they sell there they must also buy in other markets, thus shutting out United States imports and thus not contributing to the policy on Uncle Sam's part.—Toronto Globe.

Sees Its First Automobile

Donegal Village Flies Flags in Honor of Occasion

This little old-world hamlet in the county of Donegal is celebrating the appearance of the first automobile in its midst in honor of the occasion all the residents hoisted flags.

There are numerous villages in the British Islands which are still living peacefully in the days of long ago, unmarked or marked by outward show of modern progress, but comparatively few can boast of avoiding the march of the automobile.

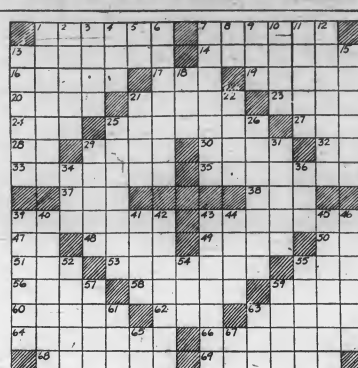

Engine Driving Exciting

When driving a locomotive the engineer and the fireman have many more thrills than the public knows of. Motor cars, pedestrians, broken rails and stalled trains provide so much excitement for them in charge of the engine the investigation shows most men of the throttle go gray between the ages of thirty and forty.—New York Times.

Fruit Growing in B.C.

Representatives of nurseries working in the various fruit districts of Southern British Columbia, report splendid business for young stock during the spring months. The Colstream Ranch, in the Vernon district, recently planted seventy acres in new trees. Such indications augur well for the future of the fruit growing industry of this province.

OUR CROSSWORD PUZZLE

- Horizontal
- 1—Courteous.
 - 7—Gentle; peaceful.
 - 12—One who advises or cautions.
 - 14—Those who join to gether.
 - 16—Woman or flapper.
 - 17—The night before.
 - 19—Warehouse or storehouse.
 - 20—Curve or bend of any kind.
 - 21—Relax the features.
 - 22—Tableland; plateau.
 - 23—Turners.
 - 25—Dried grapes.
 - 27—Equip.
 - 28—A group of islands (abbr.).
 - 29—Enraptured.
 - 30—French coins, about a cent.
 - 32—Vice-envoy (abbr.).
 - 33—Sharp, darling, local pains.
 - 35—Dig of the foot.
 - 36—Unexpected stroke of good fortune.
 - 37—Skimmed; scalded.
 - 38—Part of "to be."
 - 39—Great lake.
 - 40—Narrow path.
 - 46—Note of the scale.
- Vertical
- 1—Pertaining to cruelties.
 - 2—Underground cellar, bull.
 - 3—Speak imperfectly.
 - 4—Possessive pronoun.
 - 5—Toward.
 - 6—A hermit.
 - 7—Swordman.
 - 8—Above and touching.
 - 9—Spanish horse.
 - 10—Newspaper para-graph.
 - 11—One effected with a dread disease.
 - 12—Cautious.
 - 13—Ill-will.
 - 15—Platforms, as in theatres.
 - 16—Fondle.
 - 17—Roofing with slate.
 - 18—Stroke lightly.
 - 19—Dash or arbor.
 - 20—Ox-like African antelope.
 - 21—Vile; wicked.
 - 22—Refrained.
 - 23—Unit of work.
 - 24—Speed away.
 - 25—Harder; more inflexible.
 - 26—Those who elude.
 - 28—Ridicules.
 - 29—Scolders.
 - 31—Fighting.
 - 32—Cleanse by flooding.
 - 33—Breathe noisily in sleep.
 - 34—Young boy.
 - 35—Obtain.
 - 36—Those who rape.
 - 40—Dishes of eggs and milk, beaten and fried.
 - 41—Key-stone river.
 - 42—Traders; merchants.
 - 43—One who flings.
 - 44—Disembark.
 - 45—Rubbers.
 - 46—Hides back.
 - 52—Claw of a bird of prey.
 - 54—Product of pine.
 - 55—Type of racchore.
 - 57—Number.
 - 58—Ordered.
 - 61—Fasten.
 - 62—Deep groove.
 - 63—Suffit forming comparative.
 - 67—Note of the diatonic scale.

Can Record Message
Sent To The Brain

Discovery Made By Professor Adrian of Cambridge University

By experimenting with the apparatus used in the reception of wireless, Dr. E. D. Adrian, F.R.S. of Cambridge University, England, has evolved an instrument which makes it possible to record the messages that travel along the nerve centres to the brain.

The instrument has three tubes, an amplifier which magnifies the nerve messages 2,000 times, and a photographic plate. The tubes receive the messages as they would receive wireless waves. The nerve messages are recorded on the photographic plate in the form of dots and dashes.

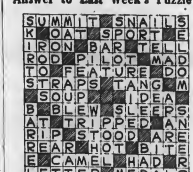

Explaining his discovery, Dr. Adrian says: "If we touch the skin or prick it with a pin each nerve fibre which is stimulated sends a message to the brain in the form of a series of small electric oscillations called nerve impulses."

"The impulses in each fibre are so small that until the advent of wireless it was impossible to detect them, although we knew what they were like from other lines of work. The use of amplifier has made it possible to magnify several thousand times, and the impulses can be recorded by a special instrument called a capillary electro-meter, which traces the electric changes on a photographic plate."

Song Cures Dumb

Slugging as a cure for faulty speech has been tried with remarkable results by the Vocal Therapy Society of London, of which the Duke of York is president. One ex-serviceman took part in the singing classes, regained the power to articulate and now is a commercial traveller.

Answer to Last Week's Puzzle

Sir Henry Thornton Optimistic

Expects C.N.R. Will Soon Be Placed On Paying Basis

In an address at the annual banquet of Canadian National employees at Toronto recently, Sir Henry Thornton, president of the system, said that before long, sooner than most people think, the National Railways will not only be self-sustaining, but will also return a profit to the public treasury. Sir Henry also commented on the growing regard in which the public was holding the service of the system and attributed the achievement of this goodwill to the loyalty of the employees.

New Class For Chicago Show

This year's International Show at Chicago, Nov. 27 to Dec. 4, will have a new class for swine carcasses or bacon type, the first of its kind for the big show. The management has also restored the class for lamboutlet wethers.

Alrchip experts predict that within ten years we may have 400-ton airplanes, each of which will carry 4,000 men, with equipment equal to ten cars, loads of freight.

CHAPTER V.

Re-enter Brandon

As a rule Joanna ran up the stairs that led from the first floor of the rooming house, once a pretentious residence, to the second floor, where she occupied a one windowed room with a filmy pattern across what had been the bow window, more glorious days. But Mrs. Adams, who sat quite still in her chair in the drawing room, was conscious that Joanna walked up slowly this time. She heard her open her door and close it softly, carefully. Usually Joanna slammed her door with a bang and a song.

Mrs. Adams examined her \$500 note, turned it over and looked curiously at the yellow back, held it closely that she might read the various engraved assurances that it was a solemn symbol of \$500 real money. And she looked at the geraniums in the potted box as intently as if she were counting the petals. But she seemed to be detached. There always had been a soft spot in Mrs. Adams' heart for Jo. Somehow this soft spot was hurting just now. Her eyes lit upon the bundle Joanna had kicked into a corner. That was like Jo. She'd leave bundles all over the house. It they contained anything that had been suggested by something new. The landlady regarded this bundle with something troublesome gathering in her eyes. She got up laboriously. Beside the flowers she picked up the \$500 note. When she went over to the corner and picked up the package.

For a time she held the cumbersome parcel in her arms, staring at it. Painstakingly she untied the cord and unwrapped it. She folded the wrapping paper neatly and put it down. Then she held up the coat and let it open. Inside had been Joanna. The very breath of her, the zest and the pretense of her. It was initiation fur, but good enough to serve its purpose. Its lines had the swagger, even if its lining was only mercerized cotton.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining, Ontario. "I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could sit at the table long enough to drink a cup of tea. Many times my husband carried me to bed. I would be so weak. Then he read in the paper of a woman suffering from which I got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and I had splendid health ever since. When I feel any bearing-down pains, I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel it owes my life and strength to it."—Mrs. NEAL BOWMAN, R. R. 1, Mining, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have that horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and when taken regularly and persistently will relieve the condition.

W. N. U. 1631

Made Knight Of Legion Of Honor

Former Cook in Canada Decorated by France For War Service

Jean Bourgot of Brittany, who gave a leg, an eye and several fingers for his country in the war, has been made a Knight of the Legion of Honor by the French Government. When the war came Bourgot was a cook in Canada and had a wife and three children. But the cook the first boat home and enlisted in the infantry, having an old score to settle with the Prussians since his father lost a leg in the 1870 war. He was wounded twice on morning, but stuck to his post until the day's fighting was over. He was twice awarded the Croix de Guerre for his bravery in this action.

perhaps there were no medals hanging on her soul, but she was safe in wishing her mother and father, where she could go to them today. They'd give lots of room to give her an argument, of course—about skirts, about the knees and stockings so thin that her legs showed through, and about some other things, but she could look them straight in the eyes just the same. It would be so splendid if they, or one of them, could be here now!

This climax to her reflections and her memories of the picnic occasion revived the glow in the skin, eager body. There wasn't anybody to share with her, except John, so she decided to just let it go at that. He'd help her, too, to reason out something about the thing that happened to her. She'd be here simply couldn't.

By late afternoon, when with some hectic scrambling into and out of her taxi, she was ready for her descent upon the silk counter. She tried to forget the logical fall of the day, but couldn't. Courageously she she had slighted the shops and stores where girls of the counters and offices got their copies of avenue mode. She hadn't went onto the avenue itself, even into the upper section, to be admitted as a patron is an award of honor which, earned, brings a marvelous deference and where she was called "Mademoiselle." The result fell upon the silk counter as a sudden breath of some exquisite narcotic that sweeps the senses into appalling ecstasy.

Joanna had timed her visit cleverly; she appeared during the lull between the leisurely shoppers who finish early and the last minute rush of the hurrying, belated ones. Trail into a spacious grand dame who was threading her way between the aisles, she suddenly stood at her old counter, only on the other side of it, her gray gloved fingers tapping sharply on the polished wood, in obvious invitation of the department buyers. With her roguery dancing out of her eyes at every face behind the counter—the faces of her workday floods—she turned away.

"Good morning, young ladies!" At that moment Joanna's voice was the silver tinkle of ineffable inner harmonies.

Store patrons sitting at the counter turned curiously to see the girl who, in the attitudes of the girls who served them they sensed a drama.

It was George, Joanna's best chum and also one of Mrs. Adams' flappers, who was first to find the girl. "Good Lord!" she breathed. "Look what the store's dropped!"

Then there was a rush. Joanna without ceremony, oblivious to customers with hands, stepped back into the aisle and swung around for inspection.

(To be continued)

Biggest Single Printing Job

Getting Out New York Telephone Directory Is Real Work

The printing of the New York telephone directory is the biggest single publishing job in the world. It now takes between five and six weeks to simply distribute the books to the 980,000 regular subscribers. As soon as one issue is finished, work is started on the succeeding edition. Distribution requires a force of more than 500 men and a fleet of automobiles, wagons and even packtrains. Despite the fact that the paper used is, from time to time, improved to save weight and bulk the last issue consisted of two volumes, weighing nearly five pounds. It has 1,920 pages with 820,000 listings. In many instances subscribers get several copies so that the total edition consists of 2,000,000 directories, requiring 500 carloads of paper.

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

Something That Spreads

The hangover was giving a lecture on infectious diseases. He pointed on a sleepy-looking boy in the back of the class.

"Now, Smith," he said, "name something that spreads."

"Am, sir," was the sleepy reply.

About the only difference between the antiquarian and the junk dealer is in the prices they pay for useless things.

BURNS.

Mix MINARD'S with sweet oil. Spread on brown paper and apply to parts injured. Soothes and heals rapidly.

MINARD'S
"KING OF PAIN"

She had stopped for a minute that afternoon between racing from one excitement to another to catch her breath and to say to herself with pride to begin. She was like a bird, but it was funny that she should remember. And queer, too, that today she had something of that same old, silly feeling that had come to her during the picnic afternoon.

She had stopped for a minute that afternoon between racing from one excitement to another to catch her breath and to say to herself with pride to begin. She was like a bird, but it was funny that she should remember. And queer, too, that today she had something of that same old, silly feeling that had come to her during the picnic afternoon.

Carry it always with you!

WRIGLEYS

Keeps teeth clean, breath sweet, appetite keen and digestion good.

Great after smoking

After Every Meal

U. S. President's Creed

Public Men Could Do Worse Than Take Advice of Coolidge

President Coolidge is not a notable speechmaker. But on the occasion of his first inaugural as governor of Massachusetts he gave this as his creed:

Expect to be called a standpatter. Expect to be called a demagogue but don't be a demagogue. Don't hesitate to be as revolutionary as science. Don't hesitate to be as reactionary as the multiplication table. Don't expect to be weak by pulling down the strong. Don't hurry to legislate. Give administration a chance to catch up with legislation.

Which is not a bad one for a public man.—Ottawa Citizen.

INDIGESTION BANISHED

Through the Timely Use of Dr. Williams' Pink Pills

The urgent need of all who suffer from indigestion is a tonic to build up the blood. Pain and distress attend indigestion. The weak stomach shows it is too weak to perform the nature intended it to do. New strength is given weak stomachs by Dr. Williams' Pink Pills, because they purify and purify the blood. This is the natural process of cleansing strength and tone to the stomach and accustoms the system to the proper action of the stomach. It follows the stomach disorders that follow the stomach. Proof of this is given by H. K. Keil, of the City of Kingston, Ont., who says:—"I cannot recommend Dr. Williams' Pink Pills too highly. I had been bothered with indigestion in a chronic form for almost ten years. Everything I would eat would turn sour. I felt as though there was a big ball in my stomach all the time. I felt tired and weak and would often turn dizzy. I doctors and tried many medicines, spending many dollars, but to no avail. One day I heard a lady praise Dr. Williams' Pink Pills and I decided to try them. I am now a healthy man. I can eat all kinds of food, and have again my old-time health and strength."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little booklet "What to Eat and How to Eat," will be mailed to you prepaid. This booklet contains many useful hints. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

And the work of righteousness shall be peace; and the effect of righteousness, quietness and assurance forever.—Isa. xxxiii.

Follow with reverent steps the great example

Of Him whose holy work was "doing good."

So shall the wide earth seem of Father's love.

Each loving life a pearl of gratitude.

—John Greenleaf Whittier.

To remedy evil, to strive for good, not to neglect the little daily duties and beneficences of life, the gracious acts, the tender courtesies, the tolerances, the appreciations in one word to love God and our neighbor, and to believe on the name of Jesus Christ, and to love one another as He gave us commandment—this is to live as Christ lived on earth.—Frederic William Farrar

Peace River Homesteads

Homestead entries at the Peace River land office for the year ending March 31, 1915, show an increase of 50 per cent. over those of last year.

Land sales for the year also show an increase, while the revenue derived from land patents, timber and grazing permits is far in advance of any previous year. During the last year the Peace River office has been open, only one year—1917-1918—exceeds the past year in homestead entries.

Searching For Trace Of First Immigrant

Anthropologist Believes Clus Can Be Found in Yukon

A search for the first American immigrant—the oldest inhabitant and the ancestor of the Indians found by Columbus—has been started by the Smithsonian Institution.

Dr. Alce Hrdlicka, National Museum anthropologist, has started for Alaska, across the finish of the flight across the North Pole, to search along the rivers, coasts and the tundra for a few bits of pottery and bone, to prove scientifically the belief that the first American came from Asia.

Hrdlicka set out for the Yukon, where the Eskimo still are told among the Eskimos of battles between Asia and the Eskimos, terrible struggles for the right of way past the fishing grounds that furnished livelihood to prehistoric man.

Hrdlicka thinks the ancestor of the American crossed the Bering Straits, fifty miles wide at its narrowest point, and worked their way down the coastal plains into the temperate zone, where the warm climate caused various immigrants to develop the many tribes of "Amerindians."

Bits of pottery have been found by the Eskimos, who now make up the bulk of the population do not make pottery. Through discovery and study of other specimens of pottery, bones and primitive implements, Hrdlicka thinks he can find a clue to the first visitor who probably came just after the glaciers receded.

Ancient Indian Relic

Stone Axe of Early Days Found on Ranch in Saskatchewan

While H. E. Diamond was riding over his ranch near Tompkins, Sask., he picked up a stone axe, evidently an old Indian instrument of warfare or a very useful cutting tool of the early days. It is about nine inches long and double bladed, with one edge about three inches across, and the other finished off to a conical shape. Around the centre of the axe are two rings, or ridges, raised about one-quarter of an inch. It is supposed, according to an old-timer's viewpoint, that this axe, and others similar, were inserted into a split in a small sapling, the sapling being secured with back and pitch between the two rings, which allowed the wood to grow around the axe, which made it very secure. After the sapling had grown to the proper size, it was cut off about two inches below where the axe was embedded, and again cut off on the other side of the axe, about 20 inches from the axe head, making a strong, non-breakable handle, while the axe head could be easily loosened, as it was secured grow about by the wood. This relic was found on the northern slope of the Cypress Hills, about nine miles south of town, and is quite an interesting specimen of Indian stone craft.

There She Was

Neither Sam nor Rasmus could tell time. But Sam had a nice, big watch, which he exhibited with a meek air of superiority.

"What time am I?" asked Rasmus.

Sam hesitated and then extended the timepiece. "Dar she am."

Rasmus, who was not used to the time, said: "Dann if she ain't."

Too Cheap For Real Thing

"Step right up, ladies and gentlemen," cried the showman at the fair, "and see the woman who lived in two before your very eyes. Only a quarter."

"If I risk that much," said a bystander, "though, of course, it must be a trick, otherwise they'd charge more."

Rouging the lips is no longer bad taste. It is now possible to buy any flavor lipstick desired.

Children Cry For

Fletcher's Castoria

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of J. C. Ayer & Co., Lowell, Mass., U.S.A.

Physicians everywhere recommend it.

Figures issued at Ottawa show that employment at the beginning of April was practically unchanged as compared with the previous month, while the situation was more favorable than on April 1 in any of the last five years, in four of which a downward trend was indicated on that date. Manufacturing showed improvement and transportation and construction registered greater expansion than usual.

Recent improvement in Oriental trade is being indicated by the heavy cargoes carried by the last few liners sailing for Japan and China from the Port of Vancouver. Vancouver merchants view the partial recovery in the volume of business being done with China as a sure sign that the country is coming back to normal. This improvement is noted especially in the recent heavy bookings of the Canadian Pacific steamers.

Whole families of Indians on the Island of Manitowaning, in Georgian Bay, work all winter making twelve-inch bark canoes which are sold as ornaments. A shipment of four thousand eight hundred of these passed through Dominion Express yards at Montreal recently for a New York destination. The old-time Indian canoe is represented in every detail and every one of the tiny vessels is beautifully decorated.

A passenger on a Quebec train was suddenly stricken with an epileptic fit and collapsed in the Windsor Station, Montreal, recently severing an artery in the neck. Constable W. W. Peterson, of the C.P.R. investigation department rendered first aid immediately until the ambulance was called. On arrival at the hospital the house surgeon complimented Peterson on his clever work. Constable Peterson is a member of the C.P.R. Police First Aid team.

According to an announcement by D. C. Coleman, vice-president and general manager of western line of the C.P.R. at Winnipeg, the Canadian Pacific Railway is to construct a hotel of 200 guest rooms on a downtown site at Regina. This hotel is being built in response to a request voiced on many occasions by representatives of the citizens of Regina.

Influx of Settlers Continues

The last ten days of May will see 3,430 new settlers from Great Britain and Europe land at Halifax and Quebec, the majority of them coming to Western Canada over the Canadian National lines to take up farms or engage in agricultural work for others.

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Lethbridge.

Start on New Railway Soon

Promise has been given of an early start on construction of the Calgary and Southwestern Railway, a line calculated to tap coal reserves in the foothills southwest of Calgary. Certain changes of route for the railway were authorized in the recent session of the legislature.

Alberta Salt Wells

The salt wells at McMurray now being developed by the Alberta Salt Co. are producing 25 tons of salt daily. The supply is abundant, two seams ranging in thickness from 120 to 140 feet now being mined, at a depth of from 600 to 800 feet.

"Each Player Will Be Numbered"

It Costs Less to Own a Better McLaughlin-Buick

FUEL—less than most cars

Gasoline, lubrication, water and fair treatment are all the Better McLaughlin-Buick needs to deliver its mileage at astonishingly low cost

The Valve-in-Head Engine, as McLaughlin-Buick builds it, develops more power from a given quantity of gas oil in the McLaughlin-Buick Automatic Heat-Control, an integral part of the Mc-

OIL—less than most cars

Laughlin-Buick carburetor, still further aids fuel economy, by super-efficient carburetion.

In no other car, regardless of price, will you find the completeness of protection for performance afforded by the McLaughlin-Buick "Sealed Chassis" and "Triple-Sealed Engine." Dirt cannot get in, anywhere, to cause wear, looseness and vibration.

To know what motor car economy really is, for finer transportation at lower cost, own a Better McLaughlin-Buick.

WATER—less than most cars

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time. The Better McLaughlin-Buick leads in registration all cars in its price range.
